PROFILE

I'm a Web Developer with hands-on experience building modern, responsive, and user-friendly websites. I enjoy turning ideas into functional digital experiences, focusing on clean design, smooth performance, and usability. I'm passionate about learning new technologies, improving my development skills, and creating websites that meet client needs and deliver real value.

EXPERIENCE

Full-Stack Web Developer · Digital Solutions Agency, remote — Jun 2022 – Present
Independent product studio · Web, Android, desktop

- Designed and developed responsive websites and web applications using modern frontend and backend technologies.
- Built reusable UI components and optimized website performance, accessibility, and cross-device compatibility.
- Integrated REST APIs, databases, and third-party services to deliver reliable application functionality.
- Implemented authentication, form validation, and secure data handling for client projects.
- Collaborated with designers and stakeholders to transform business requirements into practical digital solutions.

Digital Marketing Specialist · Digital Growth Agency, remote — MAR 2024 – Present
20+ Marketing Campaigns · SEO Specialist, then Digital Marketer, then Marketing Manager

- Planned and executed digital marketing campaigns to increase brand awareness, website traffic, and customer engagement.
- Conducted keyword research and implemented SEO strategies to improve search engine visibility.
- Managed social media platforms, created engaging content, and maintained consistent brand communication.
- Analyzed campaign performance using digital analytics tools and prepared reports to track key metrics.
- Optimized marketing strategies based on audience insights, engagement data, and campaign results.
